INDEX TO VOLUME XL

Ackers, A. L. Cited on pyrite associated with anhydrite inclusions (Adams, J. E.), 43

Adams, F. D. Cited on foliation in pre-Cambrian intrusive masses (Waters), 623
Cited on Hastings series as phase of Grenville (Tolman), 369

Adams, J. E. *Anhydrite and associated inclusions in Permian limestones, w. Tex.*, 30
Cited on Triassic, Tex. (Roth), 706

Addenda to descriptions of Burgess shale fossils. By C. D. Walcott. Review by C. Croneis, 95

Adirondack anorthosite, its problems (Alling), 193
magmatic stem: a correction (Buddington), 466

Age, faults (Swinnerton), 413
granite, Baraboo, Wis. (Stark), 136
igneous activity, Kans. (Knight and Landes), 14
Mount Shasta, Calif. (Williams, H.), 418
old, of faulting (Clark), 389, 390
primary faulting, Coast Ranges, Calif. (Clark, B. L.), 385
relations, Adirondack rocks (Alling), 198
porphyries, Loveland Mt., Colo. (Singewald, Q. D.), 26
Swakane gneiss, Wash. (Baker), 607

Ages, alteration minerals, Loveland Mt., Colo. (Singewald, Q. D.), 24

Alden, W. C. Cited on gradient, Can. (Williams, M. Y.), 571
Cited on igneous rocks, pre-Cambrian, Baraboo district, Wis. (Stark), 119
Cited on intrusions, granite, Baraboo, Wis. (Stark), 136
Cited on rhyolite, Baraboo, Wis. (Stark), 130

Alexander, H. S. *Pothole erosion*, 305

Algoman, Rest Island granite, Minn. (Cram), 270

Allen, J. A. Cited on impressions of ice crystals (Mark), 171

Allen, V. T. Cited on bentonite beds (Whitcomb), 522
Ordovician altered volcanic material in Iowa, Wisconsin, and Missouri, 259

Alling, H. L. *Adirondack anorthosite and its problems*, 193

Ally, A., and A. E. Badger. *Note on the formation of kaolin minerals from feldspar*, 745

Alteration, as an end phase of igneous intrusion in sills, Loveland Mt., Park County, Colo. (Singewald, Q. D.), 16
pre-Cambrian sediments (Tolman), 363
rocks, Colo. (Singewald, Q. D.), 23

Alterations, hydrothermal or deuteric, igneous intrusions, Loveland Mt., Colo. (Singewald, Q. D.), 27

Amber. By L. Schmid. Review by D. J. Fisher, 96

Amboy Oil and Gas Company. Cited on well reaching granite (Wasson), 678

Amphibolite schist, Wash. (Waters), 613

Analyses, chemical, change in chemical composition of weathered diabase from fresh (Wolf), 460
Rest Island granite and rocks used for comparison (Cram), 275
rhyolite (Weidman), 124

Analysis, igneous rocks, India, West Gir Forest (Chatterjee), 162
marble near Swakane Creek, Wash. (Waters), 611
Patagonian basalts (Tyrrell), 379
petrographic, Whitehorse and Permian sandstones (Roth), 722

Anastomotic drainage (Zernitz), 512

Anderson, A. L. Cited on age of Idaho batholith (Hoffman, M. G.), 637

Andersson, J. G. Cited on Graham Land, West Antarctica, basaltic lavas, tuffs, and vents (Tyrrell), 376

Andrews, E. B. Cited on quartzite boulder in coal, Ohio (Price), 62

Angulate pattern, drainage (Zernitz), 515

Anhydrite, and associated inclusions in Permian limestones, w. Tex. (Adams, J. E.), 30
origin, Tex. (Adams), 44
vein, Tex. (Adams), 38

Annual drainage (Zernitz), 507

Anorthosite, Adirondack, its problems (Alling), 193
border phases (Alling), 213
